Dear Sir or Madam:

I am wanting to apply for the role of Graduate Software Engineer. I am interested in working in a friendly environment and growing my knowledge of the software engineering. I feel my knowledge of Agile and TDD will make me a valuable member of any team.

My wide range of skills include web development knowledge, strong ability with SQL, as well as a diverse knowledge of object oriented practices. I feel these skills will be invaluable when working in different teams at rentalcars.com.

Thank you for considering my application,

Luke Collier
